About This Game

X Caeli is a unique fusion of bizarre comedy, classic arcade gameplay, nostalgic art style inspired by the 90's anime, extreme nerdyness, match-3 puzzler, intense romancing and hardcore logic experience.

It consists of Visual Novel story-telling with dialogue choices and space arcade part where every wave of enemies is a riddle that you must solve by assembling your spaceship into an answer. Our scenes are memorable and our combat is very challenging and highly rewarding.

Features:

- 12 Hours of reading time.
- 72 highly original CGs.
- All VN art is done by one man – our talented ShadowWind.
- 20+ hours of space arcade time with high replayability.
- Innovative gameplay that is like nothing else you've experienced.
- Big tutorial and adjustable difficulty: from casual to extremely challenging.
- Six girls to romance: an overly heroic captain, an ever-drunk inventor, easygoing cyberninja, greedy rogue psion, stalker-ish and obsessed doctor and cute&naive superweapon.
- Our girls have strong and non-cliche personality.

I paid you so I could goof on this game, However it has become clear to me that this would be imature and a gross injustice. the truth is...

Farheb Sucks

Boom. the double gooftacular. Rekt nub

The game is really terrible tho, not recommended for those with anything left to live for. Unfinished as f*ck, sadly can't get refunded because Valve is full of greedy pigs.. This is a great game with tons of story lines, good achievement and it really makes you feel like you have a choice. I am a sci-fi, so I did not really see the other genres, but this is a wonderful game for \$7. The only drawback is there are really only 2 endings. The school is destroyed, or you save the school. Overall good game.. First game to allow you to track the masturbation schedule of sentient flowers, winner of Most Innovative Game of 2013.. This game brings back so many memories... while downloading, I grabbed the old original CD from it and stare at it remembering all the joy it gave me. Quite a nice FPS with some RTS elements.

All I'm writing now about the game comes from playing it as a teenager way back in the 90's: You control a hover tank, called "The Wraith" navigating thru a 3d map, while trying to conquer bases for yourself. At said bases, you'll be able to summon buildings that will provide units for you to use in combat, such as infantry, tanks and aircrafts. While you can destroy every single enemy without the aid of those units, missions will take way more time than they should, and in some it will be nigh impossible to complete them, without some extra units as distraction/fodder.

A modern game that can be used as a comparison is Tooth and Tail, as in that you control a commander (but in this game you can actually attack) that has to build and manage resources, and can command units to aid in the battle.

. Terrible. Feels like playing pool in a sand pit. Mechanics are awful. UI looks like a first year game design project.

Unplayable.. WOO THIS IS THE BEST 2016 GAME EVER YET!!!!!! No...

A dumb game... That what I have to say...

REASONS:

1. This game is all about throwing your money at a woman, dancing on a pole, and avoiding items that are falling from the sky. What your throwing away if you play this game is your time and your fingers from all that clicking.

2. If you think this is one of those cheap tycoon games... Your wrong. You throw money at a woman, you trying to break your right mouse button (because of all the clicking), also trying to get over that %100 (I don't know why they made it)

3. APRIL 1ST! WE'RE RELEASING DLC! No... It's over april 1st, and they haven't yet released DLC. The button on the home

screen says 'April 1st', when you click it, it won't do anything. Maybe next year? Next april? Okay, yeah.

4. (This isn't a problem) They have as their icon GameMaker: Studio. So, they coded it with GameMaker: Studio? Okay....

5. Why the crap is this on a stage? Do people just love a person throwing money at a woman, and why do people throw items on the stage? Are they saying 'SCREW YOU!' 'GET OFF THE STAGE'

So, I don't recommend buying this, unless if you want to farm trading cards.... But, the gameplay is bad. 8 bit graphics. But, they lied to us about the DLC!!! WHY?????????????????

More content than sea of thieves. Steam And Metal
fast game with modern day graphics with easy controls that moves from location A to B to C and so on,
good amount of action and special effects,

good game.

Personal Suggested Purchase Price: \$0.49 Or Less During Sale. Seriously good and fun!

Every Mechwarrior/BattleTech series fan would LOVE this game! And it's only the beginning? Good job devs!!!. Don't get too excited. It's just a train ride version of space invaders. You have no control over your movement or progress, you just control two gun crosshairs and a couple of shields. Very disappointed after reading it was awarded best VR game of 2017. Utter dross.. Pretty shallow. I was wishing there were more depth like spacechem, but there's only two types of "combiner engines" and it quickly turns into doodle god with memes, trying all the combinations until you get bored and check the wiki.

And you have a rectangle select for batch selling, but not for batch moving? Why?. I like the idea for the game, it's just such a shame that I have paid almost £12.50 on a title screen. The game will not load, I can see my lack of saved games, watch the credits but new game doesn't seem to have been a part of the deal for me.

Please can you patch the problem out, or return my wasted money to me.

I can't recommend this game for this reason. Disappointing.

Star Conflict Team. **Re: Save Game Issues (v1.6.16):**

We had a patch go out yesterday that had some unexpected issues with save games. We think it only affected a very small number of people, especially because of the super fast responses from our amazing community (thanks BatPrince, JohnOswald & Darkronous The Ascended!) and we were able to roll back to a stable version pretty quickly.

We've used save game files provided by BatPrince and JohnOswald to test the patch more thoroughly and have ensured things should now be super rock solid. The update is now live and there should be little to no issues with it moving forward. If you see something weird after updating, first try closing down the game and re-opening it & it should resolve itself.

If after all that, you still are having issues, or you have lost anything from your save game file, please drop us a line at slayawaycamp@bluewizard.com or comment below and we can do our very best to get you up and running again ASAP.

Thanks for everything!

I'm giving away a \$50 Steam gift card:

In my never-ending attempt to actually make money, I have decided to give away said money. "How does that work," you may ask? Well, it probably doesn't. But I'm doing it anyway, because I love you!

Or because I'm stupid.

Idk.

You can enter the giveaway here (link is to my twitter with a link to the giveaway, since Steam doesn't let me link non-affiliated sites):
